

Do you sell switches or routers?

Attach a networking UPS and start saving now with APC's Attach Incentive Program (AIP)!

Get an upfront **5% discount** on APC Smart-UPS when you attach to your next switch/router (any brand) sale.*

Certainty and reliability

APC Smart-UPS provides secure power protection to your customers' critical IT equipment, making it an ideal add-on.

With Smart-UPS, you also help your customers:

- Comply with federal government purchasing contracts and GSA schedules with TAA-compliant gear
- Protect their UPS investments when migrating from a tower to rackmount environment.

APC SmartConnect:

- Free secure remote monitoring that comes standard on most Smart-UPS
- Proactive actionable alerts and lifecycle recommendations
- APC support – automatically sends you qualified leads and generates recurring revenue

Lithium-ion batteries:

- 2X times the battery life for up to 50% lower TCO
- Excellent battery performance at higher ambient temperatures up to 40°C/104°F

Network Product Switches	Manufacturer Part Number	Power Draw	Recommended Standard UPS Models	Runtime Estimate	Recommended Extended Run UPS Models	Runtime Estimate	Recommended Lithium-Ion UPS Models	Runtime Estimate
Cisco Catalyst 9200 Modular Uplink Switch 48 ports; managed; POE; rack-mountable	C9200-48P-E	1000W	SMT2200RM2UC, SMT2200C	18 min	SMX1500RM2U, SMX1500RM2UNC	8+ min	SMTL1500RM3UC	8 min
