CARBONITE® + WEBROOT®

opentext™ Business Solutions

Carbonite Endpoint Free Product Offering

For a limited time, when you purchase Carbonite® Server Backup you can receive 5 free licenses of Carbonite® Endpoint.

Take advantage of this great offer before it's gone to protect your most important endpoints from data loss.

Why is Carbonite Endpoint an important part of your Cyber Resilience suite?

Ransomware is on the rise, and now more than ever there is an increased need to protect your most vulnerable endpoints from data loss. With a rise in remote workers, the need for device backup is even greater.

Carbonite Endpoint offers features and functionality that are designed to put IT providers in control.

Requirements for preventing data loss:

- Centralized backup storage
- Incremental backup and selective recovery
- Automated backup
- Remote management and silent deployment
- Endpoint backup as frequent as every minute
- Advanced security features

Offer Details:

Each qualifying purchase of Carbonite Server Backup allows you to receive 5 Carbonite Endpoint licenses free for one year.*

*1TB minimum for Carbonite Server Backup. Carbonite Endpoint licenses are 100GB Standard Edition.

Terms and Conditions

Promotion is valid for a limited time only and is subject to change. Free Carbonite Endpoint licenses are for one year from the date of activation and renew at standard price rates at the date of the renewal. All eligible deals must be registered and approved. Carbonite reserves the right to amend, modify, or cancel this promotion in its sole discretion at any time. Only Carbonite authorized partners in North America are eligible for this promotion and must order through Tech Data or Synnex. The Free Carbonite Endpoint Licenses are conditional on the acceptance of the applicable terms of service.

About Carbonite and Webroot

Carbonite and Webroot, OpenText companies, harness the cloud and artificial intelligence to provide comprehensive cyber resilience solutions for businesses, individuals, and managed service providers. Cyber resilience means being able to stay up and running, even in the face of cyberattacks and data loss. That's why we've combined forces to provide endpoint protection, network protection, security awareness training, and data backup and disaster recovery solutions, as well as threat intelligence services used by market leading technology providers worldwide. Leveraging the power of machine learning to protect millions of businesses and individuals, we secure the connected world. Carbonite and Webroot operate globally across North America, Europe, Australia, and Asia. Discover cyber resilience at carbonite.com and webroot.com.
