

Trend Micro™ CLOUD EDGE™

A unified threat management (UTM) solution that combines a physical appliance with an industry-unique cloud scanning function. Trend Micro™ Cloud Edge™ provides maximum protection that is managed natively from the cloud, providing zero-touch deployment, multi-tenant management, and complete control of your customers' security in one central location.

- 1. Cloud Console:**
Manage Cloud Edge from any browser
- 2. Cloud Scanning:**
Offloads resource intensive functions to the cloud for maximum performance and security
- 3. Cloud Edge:**
On-premises hardware appliance delivers protection to the network

UTM FOR MANAGED SERVICE PROVIDERS (MSP)

Purpose Built for Managed Services Providers (MSPs)

- MSP pricing model
- Integrates with existing tools
- No upfront cost or long-term commitment

Better Performance

- Maximum security
- Minimal user impact
- Up to 6x better performance*

Superior Management

- Native Software as a Service
- Centralized management
- Fewer consoles

Stay Protected and Save Money

Cloud Edge offers a comprehensive set of protection capabilities including our latest predictive machine learning and cloud sandboxing technologies to provide maximum protection. Simple deployment and user-friendly management allow companies to maintain their security posture without compromising performance. As well, it provides added protection such as:

- URL filtering
- Bandwidth control
- Intrusion protection
- Anti-malware scanning
- Email security
- Web reputation
- Virtual private network (VPN)
- Firewall
- HTTPS scanning

With our new unique pay as you go pricing model, there is no up-front cost, no long-term commitment, automated billing, and centralized multi-tenant management.

TECHNICAL SPECIFICATIONS

FEATURES	CLOUD EDGE 50
HARDWARE SPECIFICATIONS	
Switch ports	5
WAN ports	2
USB ports	2
Console (RS 232)	1
SYSTEM PERFORMANCE	
Firewall throughput	750Mbps
Firewall + application control throughput	750Mbps
Firewall + application control + intrusion prevention system (IPS) throughput	400Mbps
Firewall + application control + IPS + antivirus throughput	400Mbps
Complete threat protection throughput	350MBps
Recommended number of users	Up to 50
Concurrent sessions	105,000
New sessions per second	4,500
DIMENSIONS	
Height x width x length (inches)	1.7 in x 5.9 in x 9.4 in
Weight (imperial)	2.64 pounds
Form factor	Desktop
OPERATING ENVIRONMENT	
Power required	100 240V 1.5A 50/60Hz
Power consumption	36W
Operating temperature	32 - 104 F
Storage temperature	-40 - 158 F
Humidity	5 - 90%
Noise level	Fanless 0 dBA
