# The Propel GPS® PRO Asset Management Software

Our Propel GPS® PRO Asset Management Platform brings location intelligence and actionable information of your assets to you in a simple and intuitive user interface.

The Propel GPS® PRO Dashboard is configurable by activity and will monitor asset and operational performance.

Asset Managers can see exact cost exceptions and compare productivity by division, region, or unit, to make impactful business decisions.

Our powerful polygon & along-route geo-fencing tool offers a full range of custom, dynamic, virtual borders you can set up in seconds.

Monitor your company's assets wherever they go in real-time.

*Boundaries for a Better Business!*

The Propel GPS® Asset Tracking Solution is designed to be hardware and wireless carrier agnostic.

We help choose the equipment and carrier that best suits your asset tracking needs.
